TPU8 AGENCY⁺

Where creativity meets flawless execution

AGENCY COMPANIES

We are a creative agency. We believe exceptional results are not just about great technical background, but also passion and commitment! The goal is to get you excited! Not just through the result, but the process itself. We are a creative team that is always willing to do the extra mile and push the boundaries beyond what is possible. Working with us is creating something unforgettable together! Whether you have a vision from the first idea to the final result, want to organise a large international event or just need help with any aspect of video, photo and other production activities, we are always here for you!

We operate throughout Europe. We have extensive experience in organising European events, but also world fairs and various commercial projects, both in the Czech Republic and abroad.
